

My family and I listen to K-LOVE radio daily as do many of my friends. I believe K-LOVE radio is a benefit to all who listen to it providing my community with a positive alternative to the other radio stations out there. I do not have to worry about what offensive things may be said over the air. I am concerned that Low Power FM may force the FM translators that K-LOVE uses to broadcast its signal off the air causing me and thousands of others to lose K-LOVE radio. I listen to K-LOVE radio on these stations 91.9 91.5 and 99.3 I hope you will consider my comments. Thank You Rob Tyler
